PROPOSALS FOR REVENUE STAMPS.

THE REVENUE DEPARTMENT,
15th Street, Philadelphia, July 25, 1862.

PROPOSALS will be received until the 15th of August next, for furnishing Revenue Stamps under the recent act of Congress imposing stamp duty.

Bidders will indicate the price per thousand stamps, deliverable in the cities of ten thousand each, at the Treasury Department, Washington.

As the stamp is required in similar packages, deliverable to the agent of the Department at the place of manufacture.

All the price per thousand, delivered in larger packages, will be received either at the Department, or place of manufacture.

As the price per thousand, delivered in such packages, may be easily calculated, it is requested that collectors and others never lie than two hundred stamps, and securely packed in the cases, suitable for board boxes, with initials, or other equally strong marks, so as to indicate the quantity and distance to be conveyed, as may be required by the Department, stating the difference, if any, in the cost of delivery to an agent at the place of manufacture.

All such packages before mailing to be re-examined, and the same remitted by an agent of the Department.

Bidders will also give the additional cost for blank packages, unless submitted on an agent of the Department, either at the D. part, or at the place of manufacture.

Proposals must be made for the stamps in sheets, correctly numbered, and perforated in such manner, that each separate stamp can be readily detached and used.

On and after Wednesday, the 30th of July instant, designs for the proposed stamps may be seen at the office of the Commissioner of Internal Revenue.

Each will be to be accompanied with a specimen of the style of engraving, and the quality of paper to be turned over to the contractor, and a board of directors, experts, or any other persons, and the accepted bidder, before the final consummation of a contract, will be required to furnish proof in regard to the engraving of the several denominations of stamps.

Specimens of hand and the boxes and hand engravings must also be furnished, ready to be used, and the same will be charged in the hands of the contractors in the most effectual manner, against wet and dry.

The contract will require all dies and plates to be prepared, and ready to repeat, and that new dies and plates shall be furnished to the present denomination of stamps or others, without charge, at the pleasure of the Department. And all such dies and plates will be the property of the United States for the service of the Treasury Department.

No bids will be considered except from parties who have not actually charged in the hands of the proprie- or steel engravers and printers, and who are thus engaged at the time of bidding, and provided that the stamp will be delivered to the Government, and the acceptance of bidder, before the final consummation of a contract, will be required to furnish proof in regard to the engraving of the several denominations of stamps.

Specimens of hand and the boxes and hand engravings must also be furnished, ready to be used, and the same will be charged in the hands of the contractors in the most effectual manner, against wet and dry.

In awarding the contract, the Commissioner of Internal Revenue reserves the right of deciding which party will be entitled to the contract, according to the merit of the work, security, mode of packing, &c.

Proposals should be carefully sealed, and marked "For the Commissioner of Internal Revenue," and addressed to the Commissioner of Internal Revenue.
